Billing Rights: Information on your rights to dispute transactions and how to exercise those rights is provided in your account agreement.

The information about the costs of the card described in this application is accurate as of December 19, 2024. This information may have changed after that date. To find out what may have changed, please call us at 1-800-790-2755.

How Variable Interest Rates Are Determined: Except for any introductory rates, the rates shown above are variable rates and determined by a combination of the Prime Rate added to a margin. The "Prime Rate" used is the highest Prime Rate published in the "Money Rates" section of The Wall Street Journal two business days before the closing date shown on your billing statement (or if not published on that day, on the date of its next publication following that date). If the Prime Rate increases, the Regular APR may increase. As a result, the Interest Charges, the Total Minimum Payment Due, and the number of payments to pay off your balance may also increase. Because the Prime Rate may vary, your variable interest rate will go up or down if the Prime Rate changes. We add 5.74% - 10.74% to the Prime Rate to determine the APRs on Purchases and Balance Transfers. We add 15.74% to the Prime Rate to determine the APR on Cash Advances. Prime Rate: Variable APRs are based on the 7.50% Prime Rate as of 12/19/2024.
